

BROADCASTING ON NIGHT SKIES NETWORK (NSN)

1. Activate the Mallincam. Refer to the Mallincam Startup Procedure.
2. After the 3 minute countdown has ended, go to Mallincam Xtreme Control/Video/Device – ensure None is selected and Preview is not clicked.
3. Select Night Skies Network on Firefox Bookmarks Toolbar.
4. Click ‘Broadcasters and Members Sign In’.
5. Enter Username and Password. Username and Password are located in the Password file in the control room filing cabinet.
6. Click ‘Login’.
7. Click ‘Login’ next to Site Instructions.
8. Re-enter the Username and Password.
9. Click ‘Publish Channel’.
10. Click ‘Allow’ in Adobe Flash Player Settings window.
11. You can check NSN for a streaming image by clicking Mallincam Xtreme Control/Advanced/Color Bars.
12. You can now click Mallincam Xtreme Control/Video/Preview.
13. Click Mallincam Xtreme Control/Video/NSN Mode. This will disable the video preview and video capture features which are incompatible with the broadcast at this time.
14. Unclick Mallincam Xtreme Control/Advanced/Color Bars when you have a stellar image you want to share with the world.
15. On NSN you can add a caption by typing in the blank box under the 3 windows and clicking ‘Send’.
16. You can participate in on line chat if you like.
17. To stop broadcasting on NSN, click ‘STOP’. It takes a few minutes for NSN to update the RASCPG Centre streaming status.
