

RADIO-SKYPIPE CLIENT MODE

1. Double click the Radio-SkyPipe icon on the desktop.
2. Click Mode/Client
3. Click on the blue button under 'Connect' to refresh the server list beneath the blank chart.
4. Select the appropriate observatory in the yellow window beneath the blank chart.
5. Click 'Connect'.

When finished:

6. Click 'Disconnect'.
7. Click 'Cancel' in the 'Save Data File' window.
8. Click on File/Exit Program...Close All.
9. Click No in the window.
